

SMART Hub PE260

This document explains how to get started with and use your SMART Hub.

How do I get started?

To get started:

1. Turn on the projectors or displays connected to your SMART Hub.
2. Turn on your SMART Hub by pressing the **Power** button.

NOTE: The **Power** button's light is **red** when your SMART Hub is off and **blue** when it's on.

The Welcome Center appears.

3. Press a button to start using the SMART Hub PE260 features.

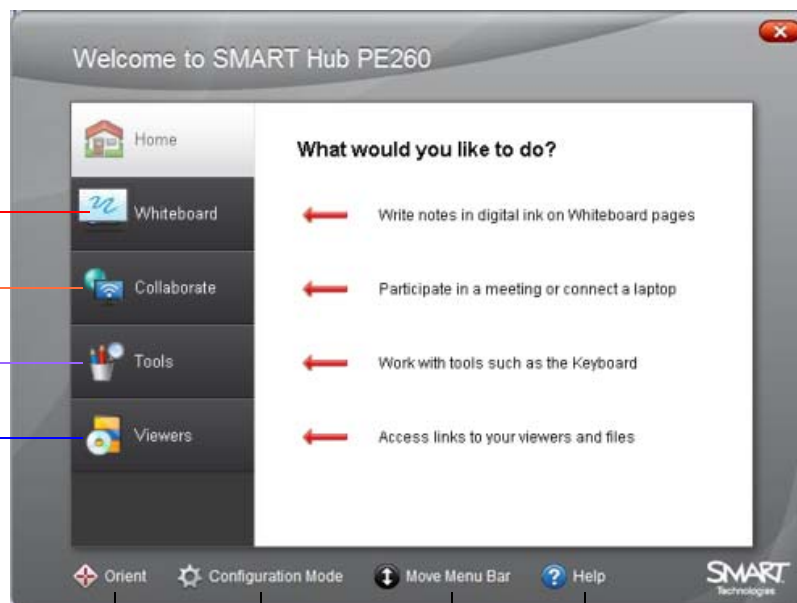

*Capture notes and present information using Whiteboard.**

*Collaborate with others through online meetings.**

*Use SMART Tools with Whiteboard.**

*View your Microsoft® Office files.**

* See reverse for details.

Orient your SMART interactive product.

Move the menu bar to the top or bottom of the display.

Configure your SMART Hub.

View online Help.

What can I do with the SMART Hub PE260?

Use SMART Tools

Press **Home** to open the Welcome Center. The Welcome Center includes links to Whiteboard, collaboration features, viewers and configuration mode. In addition, it includes the following SMART Tools:

Keyboard

Display an on-screen keyboard.

Spotlight

Highlight an area of the display.

Pointer

Point to an area of the display.

Screen Shade

Cover the display with a shade.

Magnifier

Magnify an area of the display.

View your Microsoft Office files

Your SMART Hub includes viewers for Microsoft Word, Excel® and PowerPoint® software.

You can use these viewers to open and read Microsoft Office files.

Capture notes and present information

Use Whiteboard to capture notes and present information on your SMART interactive product.

You can open and save files in Whiteboard's native file format (.notebook). Alternatively, you can import PowerPoint files or export PowerPoint, PDF, Web or graphic files.

Use multiple displays

You can connect up to four displays to your SMART Hub.

Move a window or dialog box from one display to another by placing your finger in the title bar of the window or dialog box, and then

clicking one of the two buttons that appear.

Collaborate with others

When you start a SMART Hub session, the unit automatically creates a new meeting. People in other locations can join this meeting and view your display using their own SMART Hubs or Bridgit conferencing software. (The name and password of the meeting appear in the menu bar.)

How do I get more information?

Your SMART Hub includes online Help. To view the online Help:

Press **Home**, and then press **Help**.

OR

Select **Help > Contents**.

OR

Connect a keyboard to your SMART Hub, and then press F1.

The online Help appears.
